Kobra TS LINE

Technology and Innovation

The TS line of shredders from Kobra are equipped with a host of advanced design features, the type of innovative design that has made Kobra the icon for advanced technology in the multimedia destruction equipment industry.

TOUCH SCREEN PANEL

All controls are activated by simply touching the panel.

FORWARD

Keep your finger on the "Forward" control for 5 seconds and the machine will operate for 30 seconds when transparent material needs to be shredded.

ILLUMINATED OPTICAL INDICATORS

Clearly show the current status of the machine.

EPC- ELECTRONIC POWER CONTROL

Shows the shredding load required to optimise shredding without jams (KOBRA 260/270/310/410 TS series).

OIL WARNING LIGHT

A warning light comes on when the cutting knives need oiling. In shredders with an automatic oiler, a light comes on when the oil container is empty.

SPECIAL BLADE EDGES FOR THE CARBON HARDENED CUTTING KNIVES

The development of special blade edges for the carbon hardened cutting knives which are unaffected by staples and metal clips, makes it possible to achieve high shred loads with low power consumption.

AUTOMATIC FEEDER

Automatic Feeder to shred single sheets of paper. Just insert the documents to shred into the automatic feeder and the shredder will shred automatically each document and turn into its stand-by position when shredding is completed. (KOBRA TS Line 245/260/270/310 models)

CONTINUOUS DUTY SHREDDING 24 HOURS A DAY

Special motors can operate 24 hours a day non-stop without overheating, allowing for continuous shredding and maximum daily shredding load.

ENERGY SMART® SYSTEM

When the machine has not been used for just 8 seconds, the shredder goes into automatic power saving stand-by mode and can be restarted by simply inserting material into the machine to be shredded. When the machine has not been used for 4 hours, it automatically disconnects from the mains power supply.

SUPER POTENTIAL POWER SYSTEM

Sturdy steel gears' and metal chain drive system which offers superior reliability and resistance to wear in comparison with cheaper plastic chain drive systems.

TWO SEPARATE SETS OF CUTTING KNIVES

Two entry openings and two sets of cutting knives for the separate insertion and shredding of paper, Cds, DVDs and credit cards and separation of shredded material into two bins.

AUTOMATIC REVERSE SYSTEM

Comes on when too much material is inserted into the shredder.

AUTOMATIC OILER

KOBRA TS cross-cut and High Security shredders can be fitted with a built-in automatic oiling system which eliminates the need for manual oiling of cutting knives.

SHRED GUARD - METAL DETECTOR

Stops the machine before metal objects of size which could cause a damage may reach the cutting knives. An illuminated optical indicator warns the operator to remove these objects in order to protect the knives. (optional available on the KOBRA TS line without Automatic Feeder)

Kobra 245 TS

PROFESSIONAL TOUCH SCREEN SHREDDER - SMALL OFFICES

- Shreds up to 29 sheets of paper (A4/70gr) at a time
- Automatic Feeder capacity: up to 170 sheets of paper (A4/70gr)
- Carbon hardened cutting knives, unaffected by staples and metal clips; high precision design of cutting knives allows high shred loads with low power consumption
- Motor thermal protection
- 40 liter cabinet mounted on casters
- Dimensions (WxDxH): cm 40x36x61 / cm 40x36x70 with Automatic Feeder

Kobra 245 TS

Kobra 245 TS-AF

SUPER POTENTIAL POWER UNIT heavy duty chain drive with steel gears

CONTINUOUS DUTY SHREDDING powerful 460 Watt 24 hour continuous duty motor, no duty cycle or timed cool down periods

ENERGY SMART® power saving system, the machine goes into power saving stand-by mode after just 8 seconds and switches off after 4 hours of non-operation

TOUCH SCREEN touch screen panel with led indicators

START & STOP automatic start and stop through electronic eyes

SAFETY STOP automatic stop at the door opening and/or full waste bag

AUTOMATIC REVERSE automatic reverse in case of jamming

Special lockable cover

To protect documents from unauthorized persons; equipped with approved high security lock (for all models with AF optional-Automatic Feeder)

Kobra CLASSIC LINE

Quality and Professional

KOBRA CLASSIC Line.
The highest shredding & security
performances with the widest choice
ever of shredding solutions.

CONTINUOUS DUTY SHREDDING 24 HOURS A DAY

Special motors can operate 24 hours a day non-stop without overheating, allowing for continuous shredding and maximum daily shredding load.

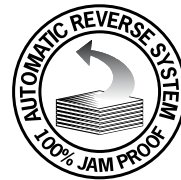

THROW AND SHRED SYSTEM

Special System with automatic feeder for shredding crumpled paper (Kobra+3 CC4).

ENERGY SMART® SYSTEM

When the machine has not been used for just 8 seconds, the shredder goes into automatic power saving stand-by mode and can be restarted by simply inserting material into the machine to be shredded.

AUTOMATIC REVERSE SYSTEM

Comes on when too much material is inserted into the shredder.

SUPER POTENTIAL POWER SYSTEM

Sturdy steel gears' and metal chain drive system which offers superior reliability and resistance to wear in comparison with cheaper plastic chain drive systems.

AUTOMATIC OILER

KOBRA "TS" cross-cut and High Security shredders can be fitted with a built-in automatic oiling system which eliminates the need for manual oiling of cutting knives.

TWO SEPARATE SETS OF CUTTING KNIVES

Two entry openings and two sets of cutting knives for the separate insertion and shredding of paper, CDs, DVDs and credit cards and separation of shredded material into two bins.

SHRED GUARD - METAL DETECTOR

Stops the machine before metal objects of size which could cause a damage may reach the cutting knives. An illuminated optical indicator warns the operator to remove these objects in order to protect the knives. (optional available on the KOBRA 400 HS/HS6, KOBRA 400 HS/HS6 COMBI)

TURBO BOOST SYSTEM

By pressing the Turbo switch the shredding capacity of the machine is increased by 30%. KOBRA "Turbo Boost" shredders feature unbelievable shredding power—up to 52 sheets of paper in one pass. (Kobra 240 Turbo series).

CYCLONE SYSTEM + COMPACTOR C-500

CYCLONE SYSTEM: blades rotating at a very high speed, combined with the power of a turbine providing the unit with an air flow, allow the shredding of up to 500 sheets of paper at a time as well as the shredding of many other types of materials into 5 different available particle sizes (Kobra Cyclone). **COMPACTOR C-500:** compresses and reduces the volume of the shredded paper by 4 to 5 times to minimize the space required for disposal (optional on Kobra Cyclone).

Kobra S-50

CLASSIC LINE - PERSONAL AND DESKSIDE SHREDDER

- Shreds up to 9 sheets (A4/70gr) at a time and Credit Cards
- Carbon hardened cutting knives, unaffected by staples and metal clips
- Motor thermal protection
- 18 liter removable waste bin with a convenient opening to waste non-shreddable material
- Does not require plastic bags
- Dimensions (WxDxH): cm 31x20x45

Kobra HS Optical Media

CLASSIC LINE - OPTICAL MEDIA HIGH SECURITY SHREDDER WITH INTEGRATED AUTOMATIC OILER

KOBRA SHREDDERS FOR SPECIAL APPLICATIONS

DESIGNED FOR *Military Bodies, Governmental Authorities and Offices handling classified and Top Secret media*
Used by CIA, National Security Agency, US Department of States and FBI
Approved by ASIO - Australian Security Intelligence Organization

Kobra 400 HS-OM

Kobra 400 HS-COMBI

- High Security Special 1,5x2,5mm cut for CDs, DVDs and Credit Cards meets the shredding standards issued by the National Security Agency of the US Government (NSA/CSS Specification 04-02)
- Shreds up to 1.500 optical media per hour
- Carbon hardened cutting knives, unaffected by staples and metal clips
- Powerful 2100 Watt motor with thermal protection
- High quality 200 lt steel cabinet mounted on casters
- Dimensions (WxDxH): cm 60x48x93

KOBRA 400 HS-OM

- Suitable for High Security optical media shredding CD, DVD, Blu-ray disc and Credit Cards with 1,5x2,5mm special cut
- 80 liter strong re-usable fabric bag for optical media shreds

KOBRA 400 COMBI

- Suitable for the combination of High Security optical media and paper shredding
- 2 separate sets of cutting knives: dedicated cutting knives for CD, DVD, Blu-ray disc and Credit Cards in 1,5x2,5mm shreds. Second cutting set to shred classified and Top Secret document in shred size 0,8x9,5mm (level P-6) or in shred size 0,8x5mm (level P-7)
- The high security cut of 0,8x5mm meets the latest shredding standards issued by the National Security Agency of the US Government (NSA/CSS Specification 02-01)
- SHRED GUARD - Metal Detection System: detects any type of metal to prevent damages to cutting unit (optional)
- 80 liter strong re-usable fabric bag for optical media shreds and 110 liter recyclable bag for paper shreds

SUPER POTENTIAL POWER UNIT heavy duty chain drive with steel gears

CONTINUOUS DUTY SHREDDING 24 hour continuous duty motor, no duty cycle or timed cool down periods

Kobra Cyclone

CLASSIC LINE - MULTIPURPOSE HIGH VOLUME INDUSTRIAL SHREDDER

INNOVATIVE SHREDDING SYSTEM: a turbine generating a high pressure air flow combined with high speed rotating steel blades, disintegrates materials and direct shreds into the plastic waste bag

INTEGRATED VACUUM SYSTEM: designed to provide the operator with clean and dust free shredding environment

- Shreds up to 500 sheets (A4 / 70gr paper) at a time regardless of the particle size
- Shredding output up to 420 kg (940 lbs) of paper per hour (theoretical output)
- Specially designed for large quantities of cardboard, carton boxes, CDs, DVDs, Blu-Ray, Floppy-disks, Credit Cards and even aluminium cans and plastic bottles
- Powerful IE 2 high efficiency motor: maximum electrical saving per year
- Built-in trolley for easy transport and replacement of the 400 liter disposal bag
- Mounted on casters
- **5 different available security levels:** particle size can be changed easily at any time to meet the required security level for the material being shredded
- **Easy to use:** just drop the material into the turbine chamber, KOBRA CYCLONE shreds it all quickly and with no jams. It also turns automatically off when shredding is completed for maximum energy and time efficiency
- **Does not require maintenance:** no oiling of cutting knives or lubrication
- Power 6 kw. Voltage 380/400 - 3 phases + neutral
- Dimensions (WxDxH): cm 80x212x210
- Weight: kg 440

Kobra Compactor C-500

OPTIONAL ON KOBRA CYCLONE - DESIGNED TO COMPACT THE SHREDDED PAPER

- Designed to work with the Cyclone industrial shredder when paper is being shredded
- Compresses and reduces the volume of the shredded paper by 4 to 5 times to minimize the space required for disposal
- Easy to install and to operate
- Makes recycling of shredded paper easy
- Compacted shredded paper can be collected into plastic waste bag or in any type of container
- Reduces dust, compacting it together with shredded paper (no in en)
- Works with any KOBRA CYCLONE security level screen, including high security level 006
- Powerful IE 2 high efficiency motor: maximum electrical saving per year
- Power 2,2 kw. Voltage 380/400 - 3 phases + neutral
- Dimensions (WxDxH): cm 110x60x148
- Weight: kg 220
